Dear Heads of Private Sector Associations:

Re: Private Sector Consultation Paper: Rule and Regulatory Procedure - Cancellation of Licences or Registrations for Virtual Asset Service Providers

The Cayman Islands Monetary Authority ("the Authority") forwards herewith for comments the proposed:

- (1) Rule—Cancellation of Licences or Registrations for Virtual Asset Service Providers**
- (2) Regulatory Procedure—Cancellation of Licences or Registrations for Virtual Asset Service Providers**

A Private Sector Consultation Paper ("PSCP") is being forwarded along with the proposed measures to provide the relevant Associations with the consultation documents as required by the Monetary Authority Act (as amended). Please refer to the PSCP for further details on the Background, Purpose and Rationale of the Measure, and Significant Costs and Benefits.

If your association has comments, please forward a consolidated response on its behalf, on or before **Tuesday, April 15, 2025**¹.

¹ Where the private sector association has no comments or representations on the proposed measure, it is recommended that the Authority be informed of this fact.

Before proceeding with the proposed measures, the Authority shall have regard to any representations made by the private sector associations only. Feedback submitted by individuals, entities, or other bodies, unless acting on behalf of private sector associations, will not be accepted by the Authority. Representations from private sector associations must be submitted as a consolidated document, and a listing of the entities which provided feedback should be included. Private sector associations should ensure that conflicting positions are resolved prior to submission to the Authority. Where positions conflict within or across associations, the Authority will consider all available information in taking a decision, which will be at its sole discretion.

To ensure that all responses are given due consideration, it is important that private sector associations make clear reference to the sections of the measure being commented on, and that responses are unambiguous, clearly articulated and based on fact. The consultation process is not designed to address complaints or grievances. Feedback of this nature should be submitted through the established complaints process.

In cases where the feedback proposes to change a policy position of the Authority or substantially amend any requirement of the draft measure, information to support the position of the association must be provided. The table below provides an example of the Authority’s expectation with regard to feedback for the proposed measures.
